

Directive REACH EC 1907/2006

In accordance with EC Directive 1907/2006, Atmosphère Contrôle SAS, manufacturer of ATCO oxygen absorbers and indicators, is a downstream user of the substances used in the composition of the oxygen absorbers and indicators. The active formulations included in ATCO oxygen absorbers and indicators are considered preparations by the legislation in force.

As a downstream user, Atmosphère Contrôle SAS ensures that the substances used are not likely to have harmful effects on human health and the environment.

Given that the substances included in the composition of the active formulations of ATCO oxygen absorbers and indicators are, in accordance with EC Directive 1907/2006:

- either exempt from registration,
- or registered by an upstream actor who covers the application of oxygen absorbers and indicators,

The company Atmosphère Contrôle SAS is therefore not required to directly register the preparations it formulates.

However, in accordance with the regulations, the company Atmosphère Contrôle SAS applies all the risk management measures recommended in the safety data sheets and exposure scenarios concerning the substances used in ATCO oxygen absorbers and indicators.

This certificate is issued in good faith and to the best of our current knowledge. It replaces any previous certificate for the same reference.
